

JAHZIAH WAGNER

Stockholm · +46 (0)760-335 220 · jahziah@bytelope.com · LinkedIn · GitHub

AI & Cloud Solutions Architect and Principal Engineer with 15 years architecting cloud-native systems across fintech, payments, e-commerce, telecom, healthcare, and government. Specialised in LLM platforms, agentic systems, and the Model Context Protocol (MCP). Certified Scrum Master (PSM I).

TECHNICAL SKILLS

Languages: Java (8–21), Kotlin, TypeScript, Python, Go, SQL, Bash

Frameworks: Spring Boot, Spring Data, Spring Security, Quarkus, Hibernate/JPA

Reactive: Spring WebFlux, Project Reactor, RxJava

Frontend: React, Vue.js, Angular, AngularJS, HTML, CSS

Databases: PostgreSQL, Oracle, MySQL, MongoDB, Redis, Elasticsearch

Cloud & DevOps: AWS (Bedrock, EKS, RDS, S3, Cognito, ECS), Terraform, GitHub Actions, Data-dog, Azure, GCP, Kubernetes, Docker, OpenShift, CI/CD

AI & LLM: MCP (local/remote servers, stdio/SSE/HTTP transports), Claude API, Anthropic SDK, OpenRouter, AWS Bedrock, Bedrock Guardrails, LiteLLM, Claude Code, agentic systems, prompt engineering, model evaluation, AI governance, AI red-teaming, OWASP LLM

Build: Maven, Gradle

Security: OAuth 2.0, OpenID Connect, JWT, BankID

Testing: JUnit, Mockito, Integration Testing, TDD

Practices: Microservices, REST API Design, Domain-Driven Design (DDD), Agile/Scrum, Code Review, Technical Leadership, GDPR, eIDAS 2.0

Spoken Languages: English (C2/Native), Swedish (Native)

PROFESSIONAL EXPERIENCE

BYTELOPE AB

Principal Consultant

April 2021 – Present

Stockholm

- Independent consulting practice delivering AI enablement, platform engineering, and digital identity implementations. Member of the Anthropic Claude Partner Network.

STRAWBERRY

Principal AI Engineer (via Bytelope AB)

February 2026 – Present

Stockholm

- Leading AI enablement and developer productivity for the **Omni team (14 developers)** as principal architect.
- Defined the AI strategy, governance baseline, and **sovereign AI** direction (DPA, EU data residency, no-training, model evaluation); selected **Claude Sonnet 4.6** as the strategic default and secured cloud credits to fund the rollout.
- Embedded with the **Platform/DevOps team** to architect and operate the central LLM platform on **AWS Bedrock (LiteLLM gateway, MCP gateway, tool federation, Bedrock Guardrails, cost controls)** on EKS; **scaled adoption from 0 to 34 users**.

- Ran a structured enablement programme for the 14-developer cohort with courses, workshops, and a measurement framework tracking adoption, productivity, and sentiment across multiple quarters.
- Designed and delivered the internal AI workshop programme: Claude Code, prompt engineering, MCP, tool calling, local LLM deployment and model selection (quantization, parameter size, inference engines), and an **AI red-teaming** track on OWASP LLM.
- **Tech:** Java 21, Spring Boot, Spring AI, LangChain4j, Python, TypeScript, Go, MCP (stdio/HTTP), MCP gateway, tool calling, ChatGPT Apps, OpenAI API, Anthropic Claude, Bedrock Guardrails, LiteLLM, Slack
- **Infrastructure:** AWS (Bedrock, EKS, RDS), Kubernetes, Docker, GitHub Actions, Datadog
- **Methodology:** Scrum, OWASP LLM, AI red-teaming, Agentic development, Prompt engineering, Token cost optimization

SWEDISH AGENCY FOR DIGITAL GOVERNMENT (DIGG)

September 2024 – October 2025

Senior Software Engineer (via Bytelope AB)

Stockholm

- Engineered Sweden's EU Digital Identity Wallet as core developer on 15-person national team, integrating eIDAS 2.0, OpenID4VCI/VP, and 8+ EU regulatory frameworks.
- Built demo relying party using OpenID4VP, integrating with EU reference implementation.
- Led 6-person team as Scrum Master implementing Digital Signature Service with PAdES standard for secure digital signatures.
- Handled subsystem onboarding for 5 engineers joining the EUDIW project.
- **Tech:** Java 21, Kotlin, Quarkus, Vue.js 3, TypeScript, PostgreSQL, OAuth 2.0, JWT, OpenID4VP, BankID
- **Infrastructure:** OpenShift, Docker, S3, Git, Maven
- **Methodology:** Scrum, OpenAI Platform, Claude Code

KINDRED GROUP

August 2021 – January 2024

Senior Software Engineer - Payments (via Bytelope AB)

Stockholm

- Owned and modernized 10 payment-provider integrations serving 3M+ active customers in regulated gaming industry with KYC/AML compliance requirements.
- Created provider implementation framework (templates, libraries, standards) adopted across all payment integrations.
- Established estimation framework for new provider implementations, reducing planning overhead through standardized Confluence documentation.
- Served as senior developer and team knowledge anchor; onboarded 9 engineers and ensured seamless Scrum Master transition after team split.
- Managed operational risk as rotating Incident Manager (~10 weeks/year), handling production incidents and escalations for mission-critical payment systems.
- **Tech:** Java 21, Spring Boot 3, Spring Data, Spring Security, WebFlux/Reactor, JPA/Hibernate,DDD, Solace PubSub+, Oracle, React, TypeScript, HTML, CSS, OAuth 2.0, OpenID Connect, JWT, BankID
- **Infrastructure:** Kubernetes, Docker, Jenkins (CI/CD), Splunk, Grafana, Maven, Git

- **Methodology:** Scrum, Kanban

SVENSK TRAVSPORT AB

Lead Software Engineer

June 2020 – March 2021

Remote

- Directed distributed team of 9 (Stockholm + offshore) in backend API development for Svensk Galopp website.
- Managed **100+ microservices on GCP/Kubernetes**, transitioning from outsourced to in-house development.
- Owned GCP infrastructure: GKE clusters, IAM policies, Secret Manager, Cloud SQL, and CI/CD pipelines.
- On-call incident manager for production systems, coordinating with operations and management.
- Shipped new Gallop web API enabling public access to Swedish horse racing data.
- **Tech:** Java 11, Spring Boot, Spring Data, JPA/Hibernate, Oracle Database, Redis, OAuth 2.0, OpenID Connect, JWT, BankID
- **Infrastructure:** GCP (GKE, IAM, Secret Manager, Cloud SQL), Kubernetes, Docker, Grafana, Prometheus, Maven, Git
- **Methodology:** Scrum

COMBITECH AB

Software Consultant

August 2016 – June 2020

Stockholm

- Completed 4 consulting engagements for Ericsson, Inera, Saab, and Pierce across defense, telecom, healthcare, and e-commerce sectors.

ERICSSON AB

Senior Software Engineer - Guided Sales Digital Platform (via Combitech AB)

March 2019 – January 2020

Stockholm

- Spearheaded development of the Guided Sales Digital Platform (GSDP) in 8-person cross-functional team, enabling configuration of billions of potential RAN combinations across Ericsson's full LTE/5G portfolio.
- Architected microservices and entity-relational mapping for complex product configuration rules.
- Trained in RAN, baseband, radio, and antenna theory to model Ericsson's hardware portfolio accurately.
- **Tech:** Java 11, Spring Boot 2, Spring Data, JPA/Hibernate, Vue.js 2, CosmosDB, Neo4j, PostgreSQL, SAP Hybris, OAuth 2.0, MSAL
- **Infrastructure:** Kubernetes, Docker, Microsoft Azure (CI/CD), Maven, Git, Linux

INERA AB*Senior Software Engineer (via Combitech AB)*

May 2018 – February 2019

Stockholm

- Sole technical lead for migrating **750,000 ISO-classified assistive devices** (product data, pricing, media) to Hjälpmedelstjänsten 2.0 — Sweden's national assistive device ordering system.
- Extracted and harmonized data from multiple administrative regions, enabling on-schedule national launch.
- Supported operations managers with data analysis to identify and resolve potential issues pre-launch.
- **Tech:** Java 11, Angular/AngularJS, TypeScript, HTML, CSS, WildFly/Thorntail, MySQL, H2, Elastic-search, Redis, Apache Shiro
- **Infrastructure:** Amazon S3, Docker, OpenShift, AWS, Basefarm, Kibana, Maven, Git, Linux
- **Methodology:** Scrum

SAAB AB*Software Engineer - 9LV CMS (via Combitech AB)*

February 2017 – April 2018

Järfälla

- Architected and built greenfield naval combat management subsystem from scratch — platform still forms the foundation of current production systems.
- Owned full technical stack: architecture, design, implementation, and documentation.
- Managed sprint backlog for 4-person team and represented the team in Scrum of Scrums meetings.
- **Tech:** Java 8, RxJava, ANTLR4, C++, Golang, Bash, Python, MongoDB (Reactive), JMS, Artemis, ESB, PostGIS, Kerberos, LDAP
- **Infrastructure:** Docker, CoreOS, Git
- **Methodology:** Scrum

PIERCE GROUP AB*Software Engineer - E-commerce (via Combitech AB)*

August 2016 – December 2016

Stockholm

- Reduced complex product data loading time by **120x** through Elasticsearch optimization.
- Authored **125 load tests** across APIs to identify bottlenecks and establish performance baselines.
- **Tech:** Java EE 7, Payara, Play Framework, Angular/AngularJS, HTML, CSS, Microsoft SQL Server, Elasticsearch, JMS, JMeter
- **Infrastructure:** Docker, Docker Swarm, Maven, Git, Linux
- **Methodology:** Scrum

SAAB AB*Software Engineer → Technical Design Authority*

November 2012 – August 2016

Järfälla

- Promoted to **Technical Design Authority**, leading greenfield development of next-generation EWLib platform — architecture and codebase still in production use today.

- Built software for air, land, and sea-based defense systems.
- **Tech:** Java EE 7, PostgreSQL, PostGIS, LDAP
- **Infrastructure:** Linux, Maven, Git

DEFENSE SECTOR AGENCY

September 2013 – June 2014

Forward Deployed Engineer (via Saab AB)

Stockholm

- Sole Saab representative on-site for major system upgrade, guiding client developers on integration of new subsystem critical to long-term platform maintenance.
- Directed client staff and coordinated all client-Saab technical communication.

ACADEMIC WORK AB

January 2012 – November 2012

Software Consultant

Stockholm

- Executed software consulting engagements for Saab, Toshiba, and Vetenskapsrådet.
- Generated annual reports for Vetenskapsrådet (Swedish Research Council) covering full year 2011 research data.

INNVENTIA EDGE

July 2011 – July 2012

Software Engineer

Stockholm

- Sole developer for BookCarbon carbon tracking system — product generated company's entire revenue stream from UK publishing industry clients.
- Extended platform with new modules and forked to create ppacalculator for PPA (Publishers Publicity Association) requirements.
- Onboarded and supervised intern developer.
- **Tech:** Java EE 6, Vaadin, MySQL
- **Infrastructure:** Git

OPEN SOURCE & PRODUCTS

consultant.dev — *AI-Native Assignment Search Platform* 2025 – Present
Production platform for searching contractor and consultant assignments, exposed through a remote MCP server (Streamable HTTP) and a GitHub App. Implements rate limiting and API authentication on Cloudflare edge infrastructure.

Tech: TypeScript, MCP Protocol, JSON-RPC 2.0, GitHub App **Infrastructure:** Cloudflare Workers

clem — *Multi-Agent Orchestration Platform* June 2025 – Present
Self-hosted system running teams of Claude Code agents 24/7 on Linux, with OS-level security isolation instead of in-process sandboxing — per-UID nftables rules route all egress through **pipelock** (auditing proxy) and **Infisical** agent-vault brokers secret-zero credentials for exfiltration defense. Coordinates agents over Slack/Discord with declarative MCP configuration across Bedrock, Vertex, Ollama, and OpenAI-compatible runtimes. Source: github.com/jahwag/clem.

Tech: Go, MCP Protocol, Infisical, pipelock, nftables, age/sops, systemd **Infrastructure:** Linux, Docker

ctxsync — *First Claude CLI (formerly ClaudeSync)* July 2024 – Present
Pioneered the first command-line interface for Claude.ai, 6 months before Claude Code's release. Automates bidirectional file synchronization between local development environments and Claude.ai projects. **739 GitHub stars, 67 forks.**

Tech: Python, Claude AI API **Infrastructure:** Git, GitHub Actions, PyPI

EDUCATION

KTH Royal Institute of Technology 2007 – 2011
Information & Communication Technology — coursework toward B.Sc.
Thesis: "BookCarbon: A System for Tracking Carbon Dioxide Emissions" — Created with In-nventia Edge for the British publishing industry. Early work in carbon tracking and sustainability measurement.

COURSES & CERTIFICATIONS

Professional Scrum Master I — Scrum.org, 2025
Agile Architecture Fundamentals — Informator AB, 2019
Software Craftsmanship — Combitech Grow, 2019
